

PayUmoney Ecwid Integration Document

PayUmoney for Ecwid

This guide will show you how to configure Ecwid to use PayUMoney as your payment processor for payments through Credit Card, Debit Card, Net banking and Saved Cards.

Prerequisites

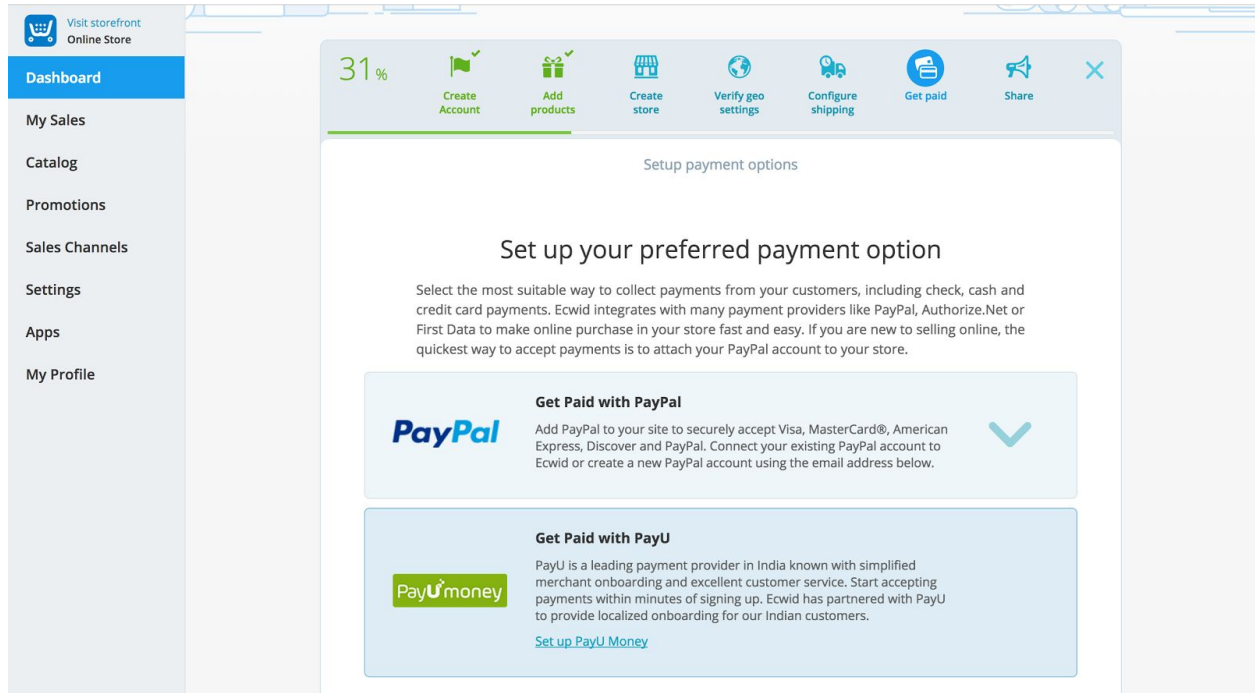

To Integrate PayUmoney payment gateway, you must :

- Have a merchant account with PayUmoney. If haven't already registered, please visit <https://www.payumoney.com/> and register as a merchant
- Know your Salt & Key. These are available on the dashboard. If you already have a PayUmoney merchant account, please login at <https://www.payumoney.com/> and you will be able to retrieve your salt and key under "Account details" tab.

Steps to Integrate

Login to Ecwid control panel and do the following:

Go to Dashboard and select to 'Get Paid' tab. You will find as screen as shown below:

- Select PayU Money. The following popup will be displayed to you.

Account Details

Configure Account

Merchant Key

Salt

☐ Send transactions to a test server (no charges)

Instructions

How to set up your credentials at PayUmoney account:

1. [Register for an account](#) to start the sign up process with PayUmoney representative.
2. Log in to your PayU Money seller dashboard (<https://www.payumoney.com/>) using your user name and password. If you use a test account, log in at this URL: <https://test.payumoney.com/>
3. Navigate to Settings / My Account in the Seller dashboard.
4. Find the **Merchant Key** under the Merchant-Key Salt tab and insert its value into the form on the left.
5. Find the **Salt** under the Merchant-Key Salt tab and insert its value into the form on the left.

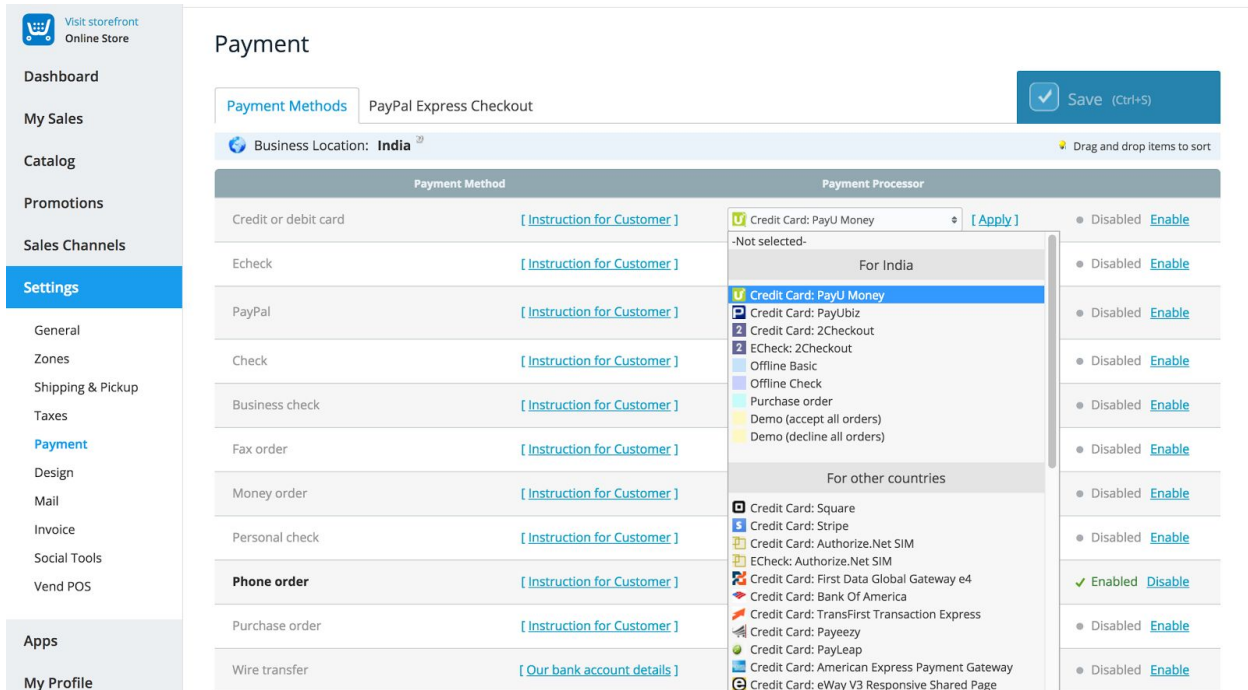

Cancel

Save

- Insert the "Merchant Key" value into field "Merchant Key".
- Insert the "Current Salt" value into field "Salt".
- Click "Save".

Alternatively

- Go to Settings → Payment. The following page will be displayed to you.

The screenshot shows the 'Payment' settings page in the PayUmoney dashboard. The left sidebar contains navigation links: Dashboard, My Sales, Catalog, Promotions, Sales Channels, Settings (highlighted), Apps, and My Profile. The 'Settings' section is expanded, showing various configuration options. The 'Payment' section is active, displaying a table of payment methods and their processors.

Payment Method	Payment Processor	Status
Credit or debit card	[Instruction for Customer]	Disabled [Enable]
Echeck	[Instruction for Customer]	Disabled [Enable]
PayPal	[Instruction for Customer]	Disabled [Enable]
Check	[Instruction for Customer]	Disabled [Enable]
Business check	[Instruction for Customer]	Disabled [Enable]
Fax order	[Instruction for Customer]	Disabled [Enable]
Money order	[Instruction for Customer]	Disabled [Enable]
Personal check	[Instruction for Customer]	Disabled [Enable]
Phone order	[Instruction for Customer]	Enabled [Disable]
Purchase order	[Instruction for Customer]	Disabled [Enable]
Wire transfer	[Our bank account details]	Disabled [Enable]

The 'Payment Processor' dropdown is open, showing options for India and other countries. The 'Credit Card: PayU Money' option is selected.

- Choose any payment method, and under "Payment processor" click "Change" link.
- Select Credit Card:PayU Money. The following popup will be displayed to you.

Note: In the select dropdown, configuring the option 'Credit Card: PayU Money' will allow you to collect payment collection through credit card, debit card and Netbanking.

The screenshot shows a window titled "PayUmoney Account Details" with a close button in the top right corner. The window is divided into two main sections: "Configure Account" on the left and "Instructions" on the right. The "Configure Account" section contains two text input fields labeled "Merchant Key" and "Salt", each with a help icon to its right. Below these fields is a checkbox labeled "Send transactions to a test server (no charges)". The "Instructions" section contains a heading "How to set up your credentials at PayUmoney account:" followed by a numbered list of five steps. At the bottom of the window are two buttons: "Cancel" and "Save".

Configure Account

Merchant Key

Salt

☐ Send transactions to a test server (no charges)

Instructions

How to set up your credentials at PayUmoney account:

1. [Register for an account](#) to start the sign up process with PayUmoney representative.
2. Log in to your PayU Money seller dashboard (<https://www.payumoney.com/>) using your user name and password. If you use a test account, log in at this URL: <https://test.payumoney.com/>
3. Navigate to Settings / My Account in the Seller dashboard.
4. Find the **Merchant Key** under the Merchant-Key Salt tab and insert its value into the form on the left.
